#### Margaret Wilson in Business

Margaret Woodrow Wilson, daughter of the former president and well known for her community work, has entered upon a business career, becoming actively identified with a New York advertising agency.

#### Belgium Threatens Break With Germany

PARIS, July 7.—(By the Associated Press)—Belgium has made what is characterized as a veiled threat to withdraw her minister from Berlin unless Germany publicly disavows the Duisburg bombing and other violence in the Ruhr.

The French government, however, in view of the close accord with Belgium is deemed certain to support the Belgian attitude.

The Belgian demand was not in the form of an ultimatum, but it nevertheless conveyed the idea that, unless Germany complied, the situation would be likely to result in the withdrawal of the Belgian minister.

The French, while standing with the Belgians, still hope no necessity will arise for the carrying out of the Belgian threat, which would be followed by France.

#### On Sea Queen's Maiden Voyage

Many notables sailed on the first European trip of the Leviathan as a passenger vessel when she left New York, July 4. Among them were Howard Chandler Christy, the painter, and Mrs. Christy. They witnessed the unveiling of President Harding's portrait, painted by Christy, on the boat.

PORT STANLEY, ONT., July 7.—(By the Associated Press)—A balloon with its basket partly submerged was sighted 25 miles south-southwest of here last night by the Steamer Colonial, her captain reported on his arrival here. The bag was described as being blue with a white circle in the center of which was a red star.

Only the bag was visible, according to Captain Cassin, of the Colonial, and there was no trace of the balloon's occupants. A government tug will endeavor to locate the bag and tow it into Port Stanley. The tug was started out shortly before noon and is not expected to return until late this afternoon.

INDIANAPOLIS, IND., July 7.—(By the Associated Press)—Fear that the balloon reported partly submerged and apparently unmanned about 25 miles from Port Stanley, Ont., in Lake Erie, was that in which Lieutenants L. J. Roth and T. B. Hull, naval aviators, left here July 4 in the national elimination race was expressed by officials of the contest today.

The ship U. S. Navy Number A-6688 was silver in color and bore the usual aerial service insignia, a red, white and blue circle in the center of which was a red star, it was said. The balloon that was sighted was reported to be blue in color. It was explained, however, that the bag might look blue from a distance.

Here is the latest photograph of Edward W. Bok, of Philadelphia, who has offered a prize of \$100,000 for the American citizen who brings forward the best practical plan for the co-operation of the United States with the other nations in attaining and preserving world peace.

#### Full Quota Under Five Power Pact Maintained

WASHINGTON, July 7.—(By the Associated Press)—The United States will maintain at full efficiency during the next fiscal year a minimum naval force at sea of 18 first line battle-ships, 14 cruisers, and 84 submarines under a decision by the general board formally approved by Secretary Denby.

The decision is viewed as significant in view of the uncertain status of the five power naval treaty resulting from the continued delay of France to ratify. An analysis of the complete program shows the navy will keep at fighting trim and at sea the full strength allotted to the United States under that treaty.

While the government was said to view as certain the adherence of France, it developed today that the cabinet has frequently discussed the situation which would ensue if the quid pro quo failed to take formal action. These discussions were general in character, it was said, and resulted in no specific conclusion.

The practical strength of the force to be maintained will be augmented from time to time during the year by the replacement of old ships with new ones which will be completed and commissioned. Prominent among these are the battleships, Colorado and West Virginia which will replace the Delaware and North Dakota, the latter being due for commissioning and scrapping.

Other new ships to be added include seven light cruisers of the Omaha class, several of which already have been delivered and eight to ten submarines.

#### Traded Children For Horse, Cow

CORTLAND, N. Y., July 7.—(By the Associated Press)—Alleged to have traded his two daughters and a son for a horse, a cow and a calf, Lark Thornton, of Truxton, was convicted yesterday of improper guardianship before Judge Champlin in children's court.

Geo. Shaw, of Truxton, with whom it was charged the banter was committed, recently was released in \$1,000 bail on a charge of attacking the younger daughter.

The latter and her brother will be committed to the county home. The court ordered the father be compelled to pay the costs.

#### Auto And Motorboat Collide In River

CINCINNATI, O., July 7.—(By the Associated Press)—A motor boat and an automobile met in collision in the Ohio river here last night, according to Traffic Police Officer Thomas McCollum.

It all started when William Rising attempted to run his auto into McCollum's garage. He missed the garage doors and went over the steep bank in the rear of McCollum's home. When the automobile headed for the river, Rising leaped out.

The car ran down the bank at the rate of 50 miles an hour. It bounded over huge rocks and logs until it reached the water. When it struck the water, the car skinned over the surface until it was 20 feet from shore and stopped when it struck a motor boat anchored off shore. Then the automobile sank until only the top showed above the water.

#### Plane Capsized

NEW YORK, July 7.—(By the Associated Press)—Waves from an incoming liner today capsized a new hydro airplane, in which two student aviators were taking out from the naval air station at Fort Hamilton, Brooklyn. The plane settled on its nose in shallow water. The students, Lieutenants James Reynolds and E. G. Vandewater, escaped injury.

#### Ratify Naval Treaty

PARIS, July 7.—(By the Associated Press)—The French chamber of deputies this evening ratified the Washington treaty for the limitation of naval armaments and capital ships by a vote of 468 to 106.

It was announced this afternoon that the chamber would discuss next Monday the treaties relating to the Pacific, the use of gases in war and the protection of neutrals.

#### Appeal Made To Rulers Of The World To Try Christianity Among Powers

WINONA LAKE, IND., July 7.—(By the Associated Press)—An address to the rulers of the world saying that "the time has come to try Christianity" in international relationships, was dispatched today by the International Conference on Christian Relationship to the capital of virtually every nation of the world.

The text, declaring that the nations "should unite in creating new standards based upon the teachings of Jesus," was approved by delegates representing many denominations of churchmen and more than a score of foreign countries. The address was sent to the sovereign head of principal executive of more than fifty nations, including every world power of Europe and Asia. The action was presented by Dr. Charles Steiwe, of New York.

Recalling that every other effort to avert war had failed through the ages, the address urged an endeavor founded upon "the laws of love, brotherhood and fair play."

"Efforts have been made to avoid the disaster which is inevitable if present tendencies continue. Every suggested method of adjusting these difficulties has failed.

"The time has come to try Christianity. It has never failed in any field when given a fair chance. And civilization is entitled to every opportunity to free itself from its present predicament. There is an inescapable obligation on the part of every nation to make its contribution to consummate this desired end, even at great sacrifice to itself.

"The nations of the world must depart from selfish individualism and human isolation. They should unite in creating new standards which are based upon the teachings of Jesus. He must be acknowledged as the supreme arbiter in every difficulty. Loyalty to Him should be the chief desire for the nations.

"It should be recognized that nations are accountable to the same Christian principles as those which pertain to all Christian men and women individuals. There is no double standard of morality and ethics—one for men and another for nations.

"We believe that the divine right of sovereignty and civil authority is vested in the nation and that the nation is an intelligent moral entity which God holds responsible for the use of sovereignty and authority which he has vested in it.

## Goldfield, Nevada, Once Synonym For Wealth, A Mass Of Ruins From Fire

GOLDFIELD, NEV., July 7.—(By the Associated Press)—Goldfield, once a synonym for fabulous wealth, quick fortunes, gambling and all the hurry and bustle of a western boom town, is but another name for desolation today. A wind from the desert yesterday fanned a fire which officials said had been set as an episode in a bootleggers' feud and swept the flames from end to end of the community.

Of all the streets of houses known to the miners and prospectors and the sportsmen who flocked hither to see the Hans-Nelson fight in 1906, only a half dozen remained today. Of these the Goldfield Cafe where miners in boots used to watch dress suited promoters dancing with women in fashionable dinner gowns, stands alone. Though the fire started across the street, it escaped.

The rest is waste, charred walls, smoldering ashes and dark smoking ruins.

Goldfield gave the flames a hard battle. Water, piped thirty miles from a spring in the mountains and granulated from the stores of mines and the magazines of supply were used against them, but the supply was inadequate.

Though for years Goldfield, which was a city of 25,000, had more houses than its dwindling population.

#### Rob Prince And Princess

ROME, July 7.—(By the Associated Press)—Prince Carlo Giustolani Bandini and his wife, Princess Maria, were chloroformed during last night by two servants in their palace, who stole jewels and money valued at 2,000,000 lire. The servants escaped from the palace with their booty and have not yet been found.

## Wm. G. McAdoo Has Big Following As Candidate For Presidential Nomination

BY DAVID LAWRENCE  
(Copyright 1923 By The Portsmouth Times)

(This is the second of the series of nine articles by David Lawrence on presidential possibilities and impossibilities giving an appraisal of the men most talked about today for the Republican and Democratic nominations.)

Mr. Lawrence has just finished a tour of the Western part of the United States with President Harding and is now enroute to Europe to make a detailed survey of reconstruction problems there. At the conclusion of this series, Mr. Lawrence's daily cables from Europe will begin exclusively in The Portsmouth Times.

director general of the railroads. It is remarkable because Mr. McAdoo publicly declined to be a candidate at the last convention and his friends were unable to win the nomination chiefly because of the son-in-law relationship of Mr. McAdoo to Woodrow Wilson. What was considered a liability then, however, now is being talked of by his friends as an asset.

The disposition of the county in 1920 was to forget as quickly as possible all that happened during the war. Consideration of anyone who was connected with the war time administration as a possible candidate for the presidency was not with the statement that the people were not inclined to look back. Would the selection in 1924 of a man identified with war time restrictions revive the controversies which caused so much of the ill-feeling that resulted in an overwhelming defeat of the Democratic party in 1920? That's the great obstacle that the McAdoo movement has to overcome. Curiously enough, however, the strength of McAdoo today is not his achievements during the war when he had practical control of the finances of the United States government—the largest transactions that ever were carried on by a secretary of the treasury in this or any other country.

The chief assets of Mr. McAdoo are the remarkable loyalty of his friends who have left no stone unturned since the last convention to make it possible for Mr. McAdoo to get delegates, and the amazing hold which Mr. McAdoo has on organized labor, particularly the railroad men of the country. Even in 1920 Mr. McAdoo was regarded as a strong candidate because of his hold on the railroad workers. But if he had strength then with the railroad men, he has redoubled it since.

#### M'Adoo For President Boom Is Launched

NEW YORK, July 7.—(By the Associated Press)—Detailed plans for launching a William G. McAdoo for President boom, have been worked out at a dinner of a dozen of his most intimate friends here, the New York Evening Post said today. Although Mr. McAdoo has not formally announced his candidacy, his supporters were declared to be confident his hat would be in the ring.

The dinner, taking recently, ostensibly to honor Samuel R. Amidon, National Democratic committeeman from Kansas, picked Mr. Amidon to handle the McAdoo campaign, the Evening Post says.

The dinner discussed the relative strength of former Governor Cox, of Ohio, Governor Smith, of New York, Senator Underwood, former ambassador to Great Britain, John W. Davis and Henry Ford, concluding that McAdoo could enter the convention with 400 delegates and with many others ready to vote to him as soon as they had registered "favorite son" choices.

Mr. Amidon, now on his way to Europe, is expected to return in September, by which time it is said, McAdoo clubs will have been formed in some states and the campaign be ready to be brought out into the open.

Discussion of Henry Ford's chances was said to have occupied a good deal of the dinner's time. The McAdoo strategists concluded that if McAdoo announced his candidacy soon enough he could spike a Ford Democratic boom, although the Detroit manufacturer probably still would have to be reckoned with as a third party candidate.

Smith and Underwood, they decided, were not especially dangerous, it being held that their "wet" trend was politically unpopular. Cox, the Democratic standard bearer in the 1920 race was believed by the dinner to be McAdoo's powerful opponent, reports reaching them that Kentucky, Ohio, and at least two middlewestern states were lining up for Cox.

Davis, the dinner decided, probably would enter the convention with a good showing of strength, led by his native West Virginia contingent, but most of this strength, it was declared, could be swung to McAdoo.

#### Ex-Editor Found Guilty

CHICAGO, July 7.—(By the Associated Press)—Arthur Lorenz, former editor of the Illinois Staats Zeitung, was found guilty late yesterday of criminally libeling the American Legion. In an editorial he termed its members "bums," "vagrants" and "tramps." He faces a sentence of one year in jail or a fine of \$500 or both.

The editorial was printed in the German language newspaper in December, 1921.

National and state officers of the legion testified at the trial. The defense used one witness, William Trautman, a linguist, who criticized the translation of the editorial as it appeared in the indictment. His own translation was declared by state attorneys to be fully as libelous as the original. The jury deliberated only thirty minutes.

### CADORE RELEASED

NEW YORK—Leon J. Cadore, veteran right-handed pitcher has been released to the Chicago Americans by the waiver route. It was announced today by the Brooklyn National League club.

This Evening's Program:  
Concert: Geoffrey O'Hara, noted song writer, assisted by two artists.  
Tomorrow Afternoon's Program:  
Lecture-Demonstration—"Home—the Heart of Life." William Dallas Campbell.

There was mingling of laughter and tears in the Redpath Chautauqua audience this afternoon when a great story of a great mother love was interpreted by a Broadway cast in the three-act comedy, "Turn to the Right."

The story is an old one: the country boy comes to the large, overwhelming city, where he "goes wrong" under the influence of two crooks, "Dynamite Gilly" and "Blippery Muggs." After a prison sentence, he goes back home. The scene shifts to a farm house kitchen out which comes the savory odor of pies, cakes and cinnamon rolls; out of which comes the blessed influence of a mother. There is a happy, wholesome ending founded on a romance of love and marriage.

The cast was a brilliant one, chosen from artists of long standing. Raymond Bawlings, playing the role of Joe Bascom, the exuberant country lad, has had several runs on Broadway. Beverly West as Betty Bascom, Joe's sister, played in "The Gold Diggers." Thomas Manning, the grocery boy who materially affected the welfare of the Bascom family, created the role of High Muller in "Way Down East." Frederick Boland, alias "Slippery Muggs" the crook, has run in several large stock companies throughout big cities; Helen Faine (Jessie Strong) was a member of Ben Graetz Players; and Peggy Boland was the original Amy in "Little Women."

Mrs. Frank Frayne, the mother, about whom all other characters motivate, gave an interpretation of her role that brought tears and smiles to a spell-bound audience. Mrs. Frayne herself is an artist of the highest order. Last year she played with Fritz Luber's Shakespearean Co. and also in Beattie Barrisford musical comedy "Picking Peaches."

The drama as a whole was a clean wholesome and delightfully original one, equally rich in pathos and humor. It brought with it a tender heart interest and an exhilarating moral lesson.

### Junior Town Organized

This morning's program saw a new Chautauqua feature introduced, a "Junior town" organized for the youngsters of Portsmouth under the direction of Miss Irene Hayes, Junior leader. Its purpose is the teaching of citizenship and civic pride to the youngsters playing realistic parts in it. The following committee was elected: Mayor, Herbert Hill; City Clerk, Kathleen Thomas; Law and Order Commission, Stanley Waite, Keith Hemphill and David Goddard. Some of the laws drawn by the members of Junior Town include, the upkeep of the town in a clean and orderly condition, the prohibition of all youngsters from the stage and piano and abstainance from entering the pup tent without special permission.

### Fine Lecture This Morning

This morning at ten o'clock Mr. Wallace Ambury, lecturer in general literature at Armour Institute of Technology, Chicago, gave a comprehensive review of the French-Canadian in literature, full of colorful descriptions and poems in dialect. With dramatic and yet unassuming poise, Mr. Ambury carried away an enthusiastic audience to the realms of old Canada, unmasking the beauty of soul and ruggedness of body found in that country's natives.

### Rain Stopped Night Program

Only the first part of the program, the Grookan Marlaba Co. was presented last night. Grauville Jones was prevented from speaking by the heavy rains which overcame the young man of his voice. Mr. Jones is a firm believer in the youth of today, and declared firmly in favor of their courtesy, respect, godliness and goodness.

## Unless 200 More Chautauqua Tickets Are Sold Scouts Must Make Up Deficit

Returns on the season ticket sale for the Redpath Chautauqua late last night showed a marked jump toward the quota which will put Portsmouth over the top, but about 200 tickets still remain to be sold before the sale will put the Boy Scout Council free from financial obligation on their contract with the Redpath management by which the program which started yesterday has been made possible for this city. By special

concession of the Redpath superintendent, W. P. Allen, in charge of the Portsmouth Chautauqua week, the local committee had permission to sell season tickets today at the same sale price which is still a great saving considering the total cost of single admissions at the gate. Unless the people of Portsmouth show their appreciation of the type of entertainment of which they had a sample yesterday and also of the efforts of the local association,

the Boy Scout Council will be held responsible for the difference in actual advance sale of season tickets and the quota of 800 tickets, the terms of their contract.

Buy your season tickets at once and help toward the elimination of any chance of the Boy Scout Council having to pay any deficit. Tickets can be obtained by calling the Bureau of Community Service office on Second street. Phone 1715.

## DEATH CALLS GEORGE THOMAS

George Thomas, aged 60, one of the city's best known citizens passed away Saturday morning, his death taking place in Christ Hospital, Cincinnati, which he entered last Tuesday. His wife and only son, Richard, aged 16 were at his bedside when the final summons came.

Few of Mr. Thomas' friends were aware of his serious condition and the news of his passing away will come as a shock to them. He had not been in good health for several months, but his condition was not regarded as serious by relatives and friends. His death was attributed to complications.

The body will arrive here tonight on the late N. and W. train and will be moved to the Thomas home, Eighth and Findlay streets, where the funeral services probably will be held.

Mr. Thomas was born and reared in Ironton and was identified with one of the banks in that city before coming to Portsmouth 18 years ago when he married Miss Essie Richardson of this city. One son, Richard,

son was born to their union. Mr. Thomas also leaves three brothers, many life long friends in Ironton and Lawrence county, where the news of his passing will be generally regretted. Mr. Thomas was companionable and genial at all times and his death will be sincerely mourned here by a wide circle of friends.

He was a member of Aurora Lodge F. and A. M. of this city, the Masonic Chapter and Commandery of Ironton and the Scottish Rite Consistory in Cincinnati.

WEST UNION, O., July 7 (Special to the Times)—Since his alleged confession obtained by the officers several days ago, John Spire, held in the county jail here in connection with the finding of the body of R. F. Morris, who was murdered near here May 27, Spire has refused to talk much of the case. He insists that the story he has told is correct in detail and that he does not know anything more that would aid the authorities in running down the two men who he claims were in the death car owned by Morris. It has been in possession of officers here for more than a week or since its recovery in New Boston, Scioto county.

CINCINNATI, July 7.—"My four-year-old granddaughter, Hazel Morris, undoubtedly saw a vision of her father at the moment he was murdered," was the amazing statement made yesterday by Mrs. Lottie Muller, 124 East 12th street, mother-in-law of Robert F. Morris.

"It was about three o'clock on a morning several weeks ago when I was awakened by the excited voice of my granddaughter, who was in bed with me. She was calling out, 'Father, oh my father!' Her eyes were open and she was staring at me with a look of intense fear. She was sitting up in bed, her little hands clasped. Then of a sudden she stretched forth her arms as if to embrace whatever it was she saw. 'I was greatly frightened and I trembled. Never before had the little one acted so. I was unable to even attempt to awaken her from her spell for a time. Finally, I gently shook her shoulders and she awakened.

"Oh, I saw my father. He was standing there, she told me as she pointed to the side of my bed. I had no suspicion then that my son-in-law had come to any sort of trouble. The first news I had was from a newspaper, yesterday. At the time Hazel saw what I believe now to have been an apparition of her father she had been studying his picture day after day and I suspected it had made such an impression on her mind that she had begun to dream about him. For long periods the child would sit and gaze upon the pictures of her absent father and her dead mother."

Mrs. Maude Morris, mother of Hazel, died in Cincinnati three years ago and is buried at Warfield, Ky.

Father Anxious Over Boy  
A letter received by H. C. Cooper of West Union, former consistory, who has been working on the case, from Morris' father follows:  
308 E. Woodland Ave., Knoxville, Tenn., July 3, 1923.  
Sir:—In regard to K. F. Morris, he is my son. I will give you his description, he is fair complexioned, blue eyes and light haired, 5 feet and 4 to 8 inches high and has two fingers off on right hand just below the knuckles. This leaves his thumb and forefinger and little finger. He was at Amersdale, W. Va., the last I heard of him. It has been three months since I last heard from him.

Fleas can tell me about this as soon as you can. His mother-in-law lives in Cincinnati some where. She keeps his little girl. This is all the information I can give you for me know more about it if you find me any more for I am bothered very much.

## Gouraud Defends French Action

BALTIMORE, MD., July 7.—Addressing soldiers of the regular army and civilians in military training at Camp Meade today, General Henri Gouraud, of France, defended his native land for maintaining a large standing army in peace times.

"France has a very definite and pressing need for a large standing army," General Gouraud said. "I am unable to say whether or not military camps such as this are sufficient for the needs of the United States, but I can say very decidedly that France needs a standing army sufficient for any emergency."

Look At This: Money In Picnic Fund  
Final disposition of the proceeds of the big Farm Bureau and Grange picnic held on the Fourth at the Lucasville Fair Grounds was made last night at a meeting of the general committee. After all expenses had been paid it was found that there was a balance of \$147.65. The picnic organization owed the Grange

and Farm Bureau \$70, this amount being the financial loss incurred in the two previous outings. This amount was paid, leaving a net balance of \$77.65 in the picnic fund for next year. With this as a nest egg, the committee expects to plan bigger and better things for the fourth annual picnic on the next Fourth.

## Britain Threatens To Prosecute Englishmen Of Leviathan's Crew

LONDON, July 7.—(By the Associated Press)—The threatened prosecution of many members of the Leviathan's crew for alleged desertion from British vessels is attracting much attention here.

The Daily Mail says the proceedings will be taken by the board of trade to protect British shipping. Other reports assert that the action will be taken by the steamship companies.

The number of men who are threatened with arrest under the British merchant shipping act is variously estimated at between 100 and 300. The Daily Mail reports that one company has the names and addresses of 100 men belonging in Southampton who are known to have shipped aboard the Leviathan. The newspaper adds that when the liner arrives at Southampton she will probably be quarantined until the police have identified each man.

There have been many complaints of British ships being forced to return short handed because of the desertion of their men who have been attracted by the high American wages although they signed for the round trip and were warned before hand of the penalties of desertion. It is stated that 200 men left British ships in New York, Philadelphia and Boston during the first week of May alone.

NEW YORK, July 7.—(By the Associated Press)—There are about 75 Englishmen employed on the Leviathan, all in the steward's department. W. J. Love, vice president of the Shipping Board, stated in connection with reports from London that some members of the Leviathan's crew were threatened with prosecution for alleged desertion from British vessels.

### Two Candidates

Two candidates, Walter Phillips and John S. Duggs, were initiated at the semi-monthly meeting of River City Aerics, Thursday night. Secretary W. H. Baker reported that he is still securing signatures of persons favoring the old age pension bill which is subject to the approval of the voters of Ohio next November, and which is being supported by the Central Labor Council and the Eagles. Anyone wishing to sign is asked to see Secretary Baker at the Standard Supply Company during the daytime. Dr. Joseph Gill, Walter Miller and Luther Trumble, who compose committee in charge of arrangements for the outing which is to be held in the near future, reported that favorable progress was being made.

### A Busy Place

The office of the Superintendent of Schools is a busy place these days. The task of assigning more than 2000 school children in Portsmouth to the various class rooms, and of assigning the 200 teachers to the various schools must be completed by the opening day of school in September, and the superintendent and his staff are kept very busy with this work.

In addition, many boys and girls apply daily for age and schooling certificates, permitting them to work, and the work of investigation requires a great deal of time and patience.

### GYPSIES GIVE PIKETON A THRILL

PIKETON, July 7.—Quite a little excitement was caused here Thursday when a tribe of Romany nomads drove into the village in Packards, Buicks, Dodges, etc., and parked their cars on the street preparatory to telling the fortunes of those who believe in the magic art of the Gypsy. The men of the tribe lounged in the cars while the women made the rounds of homes, stores and business houses in an effort to exact a little easy money from the inhabitants. On leaving Piketon the tribe divided, part of them continuing their journey toward Hillsboro by the way of the Jackson-Hillside pike, and part of them headed their cars in the direction of Chillicothe.

Shortly after their departure several aged residents of Piketon and the surrounding territory got in touch with Chief of Police C. A. Markham and Squire S. H. Custer and informed the officers that "they had been touched for several dollars by the deceiving Gypsies."

With his characteristic aggressiveness Chief of Police C. A. Markham immediately started the machinery of the law working and swore in a number of deputies, among them were Earl Silcott, Milby Freeman, Scott Graham and George Leist, Jr., and started in pursuit of the offenders.

The posse first went in the direction of Jasper and overhauled the Gypsies just east of the Scioto river bridge near the village. It seems that this party had not been guilty of any misdemeanor and that the guilty parties had started in the direction of Chillicothe.

Chief of Police Markham and his posse immediately retraced their steps and started in the direction of Chillicothe in hot pursuit of the fleeing outlaws. In the meantime word of the robbery had been telephoned to Chillicothe and when Chief Markham and his deputies arrived in that city they found one party of the Gypsies in the custody of the Chillicothe police force, several machine loads of the Gypsies having passed through that city before word of the robbery was phoned from Piketon. The Piketon officers were accompanied by the persons whom the Gypsies had robbed and some of the offenders were identified in the party which had been apprehended by the Chillicothe police, and were forced to return the stolen money to the victims. The officers then continued to Bainbridge where the balance of the Gypsy tribe was overtaken and were compelled to return the money which they had stolen from the Piketon citizens.

### Golfield

(Continued from Page One)  
needed last night there were not roofs for the thousands that remained when the fire started.

TONOPAH, NEV., July 7.—The town of Golfield, with the exception of six buildings, were burned to the ground today. One man is dead from causes attributed to the fire, a woman is missing and is believed to have perished and several persons were treated for burns as the result of the conflagration now believed to have been of incendiary origin, started as part of a bootleggers' fuel.

Fire Chief I. N. Gallie, of Golfield, declared that he believed an enemy of a known bootlegger started the blaze in a building in the rear of the Brown-Parker Garage. Don D. McAdoo, after carrying furniture from his burning home, died of heart failure, according to Dr. Charles R. Blake. John Salisbury and Ben Gill were cut about the face and hands by flying glass resulting from the dynamiting operations. The name of the missing woman has not been learned.

Refugees returning today from the mountains, where they fled, found that they had lost their property, all of the local supplies having been destroyed. A group of miners' shacks on the outskirts of town are being rehabilitated under the direction of a relief committee. The Elks' Club is also aiding in this work.

The main buildings surviving the fire are the hospital, railroad station, Old John S. Cook Bank Building, Golfield Hotel, Postoffice and Elks' Club.

Relief Funds Raised  
Tonopah has raised \$3,745 for the relief of the sufferers and caravans of automobiles and trucks laden with food have been dispatched. Refugees are arriving in Tonopah and a special train is scheduled to leave Golfield for Tonopah today.

The alarm was turned in by Mrs. Charles Miller, who arrived early in the morning to go to Tonopah and noticed the flames. This was at 6:35 a. m. Nine hours later the town had been destroyed.

Nine city blocks in the center of the town were burned by flames, fanned by a forty-mile wind. Telephone and telegraph wires were severed soon after the fire started this morning and all word since then has been received by courier.

The water supply was not sufficient to extinguish the flames and dynamite only scattered the frame structures and added kindling to the flames.

Big Structures Burn  
The first big structure burned was the Brown-Parker Garage, containing 30 automobiles. Then the Nevada Hotel and the Woods-Sullivan Hardware Store were destroyed.

The area covered by the fire was nine blocks north of the garage, where the flames first gained headway. Homes around the shops of the Tonopah and Golfield Railroad burned.

### McAdoo

(Continued from Page One)  
through a series of disappointments since the private owners took back the railroad, the Eastern bloc of the country has been out on subjects. Railroad executives have tried to do in breaking down the standards, working rules and wages set up during the war time administration. Although it is a long way to public ownership, the shrewdest of the railroad employee leaders recognize that the tendency of the age is toward closer government supervision of the railroads of the country, and under such circumstances a friend in the White House would be an asset to the railroad workers.

Politically speaking, a nucleus of railroad men in every division point in the United States is a political organization in itself. There has always been a good deal of talk about the labor vote and how helpful it can be to a candidate who is friendly to labor, but only is safe in saying there never has been a candidate for high office in the last 30 years who

has been so closely identified with the interests of a large group of working men as Mr. McAdoo. His candidacy would inspire intense activity by these men.

Mr. McAdoo is also familiar with Taxation. It is unlikely, however, that Mr. McAdoo would confine himself entirely to railroad questions should he become an active candidate. As secretary of the treasury he became familiar with the finances of the government and questions of taxation. He is an authority on this subject and should be present a radical program for revision of taxation in the United States, he would be in an advantageous position because he could speak by the book.

If prohibition should be an issue of importance in the Democratic convention, Mr. McAdoo would lead the "dry" side. He is a confirmed "dry" and would have the support of William Jennings Bryan as against any candidate of so-called liberal views. Mr. McAdoo gathered most of his strength in the last Democratic convention from the arid West. Some of the Eastern states which are wet would not be for McAdoo, anyhow, even though he were inclined to think as they do on prohibition. When Mr. McAdoo was secretary of the treasury he incurred the hostility of the Tammany organization in New York, and was not in fact with those political bosses of the Democratic party. Woodrow Wilson had the antagonism of these same groups in the Democratic party but won the nomination despite it in the famous convention of 1912 at Baltimore.

### ABE MARTIN

### On Topics o' th' Day

"Fights must not be allowed to simmer down, I carry on half heartedly, I die down and flare up only to die down again," said Hon. Ex-Senator ABE MARTIN, last night, at a mass meeting at Melodeon Hall, called to take some steps to stop lugging in fast moving automobiles. A speaker turned out the porch of a grand new Turner, yesterday, knocking her into a rainy gutter. The driver was lugging a girl at the time. "We've had too many examples of great public movements dying out of lugging in great reforms, of going to sleep just when success was rounding the hill," continued the speaker. "Where's our coal investigation? We've got to do great things, but I paid more for coke in June than I did in January. We've got to slow the sugar barons where they head in, and we've got to get after the show men, and we've got to get after the make it world safe for democracy, but we haven't done nothing since the armistice was signed but make money. They want a howl to get back to normalcy, but everthings getting higher and higher. 'Th' people are allus going to do great things, but they soon doze off again. If daz-zlin' headlines are responsible for a death, there's a spasmodic flurry to enforce th' dinner law, an' if half th' homes in town are robbed there's great activity 'mongst th' police for an hour or so. Th' only fight we ever knowed of that wuz carried on to a successful end wuz th' prohibition fight, but even now th' raids are spasmodic an' wuz widely scattered. What's become of th' light crusade an' th' spittin' ordinance? What's become of th' outraged public that wuz goin' to pay no more for rents an' gas an' telephones? Th' public hasn't got no more fight in it than a coyote. It makes a lot of noise an' then meekly cringes to th' inevitable. A public that kin be kidded 'at payin' \$15 for a pair of shoes kin be tricked with wooden heels kin be tricked with anything. An' 'aroused public' is jest like a wound up top. Wher's 'public sentiment' all th' time when it hasn't aroused? We read where the people wuz 'stirred to action,' jest th' same as a circus attendant pokes a rhinoceros to make him stand up. Once in a great while th' 'public conscience' is awakened, but it's got to be somethin' terrible to awaken it. Don't th' public conscience ever get enough sleep? It's a mighty awful thing for a poor, tired out night watchman to fall asleep, but th' 'public conscience' is under other three hundred and sixty-four days out of th' three hundred an' sixty-six. Eternal vigilance is th' price of peace, life, limb, diamonds, watches, spittin' ordinances an' prohibition, an' if we're to be spared from being stunned evertime we pick up th' family newspaper we've got to keep up a sharp, continuous runnin' fight again all th' agencies that are at work day an' night to rob an' maim an' demoralize th' world."

### Congress Cannot Regulate Amount Of Liquor A Physician May Prescribe, Rules Court

HELENA, MONT., July 7.—Congress, having conferred upon physicians the discretionary right of prescribing liquor, cannot regulate the amount a physician may prescribe, United States Federal District Judge George M. Bourquin, of Montana, held in substance today in a decision.

With reference to the maximum amount of liquor which the prohibition enforcement law states may be prescribed to any one patient, Judge Bourquin declared portions of the law unconstitutional, for the reason that patients are not alike, and diseases are dissimilar, the dosage cannot be fixed arbitrarily.

The Court decision holds as invalid and unconstitutional those portions of the Volstead act which limit the number of whiskey prescriptions a physician may write and the quantity of whiskey which he may prescribe for any one person in a given period.

Prosecution at End  
In the decision, Judge Bourquin invalidated the prosecution of Dr. J. B. Fremd, of Butte, whom it was charged, issued more than 100 prescriptions within a ninety-day period and prescribed more than one-half pint of alcohol to one patient in ten days.

The Court said "that, if therapeutic uses are an exact science and diseases and their courses with unvarying diagnosis and patients were all constituted alike, the provision arbitrarily fixing the amount of alcohol which could be prescribed might be valid, but, since, in respect to all these factors the truth is otherwise, every patient presenting to the physician a different problem for solution, this provision of the statute is invalid."

The decision continues: "It may be that even as legislation for reasons of health can compel vaccination, it might in like behalf extend prohibition of alcohol for therapeutic uses. But so long as legislation tolerates or sanctions such use of alcohol, the duty and judgment of the physician, the necessity and welfare of the patients, and the right of both, cannot be subjected to arbitrary and unreasonable legislative interference like the statutory provision aforesaid."

Provisions are Illegal  
"The physician with unrestricted power to begin a course of treatment must have like power to finish it. Otherwise there may be danger greater than involved by denial by any power for the latter might be supplied by substitutes. These statutory provisions to restrain the judgment of physicians in exercise of power to prescribe alcohol, deprive physicians and patients of liberty without due process of law within the meaning of the Fifth Amendment, are unconstitutional."

The Court held that the Bureau of Internal Revenue has the power through its regulations to cope with abuse of the use of alcohol, without attempting to dictate to the physician in the treatment of cases where alcohol is prescribed.

### Appeal

(Continued from Page One)  
"We believe that God's judgment can be averted only by national repentance for sin and by national obedience to the laws of love and brotherhood and fair play, as taught by Jesus, and that such obedience will bring peace to the world, and restoration of prosperity and happiness to all peoples."

Death Sentences Stand  
DUESSELDORF, July 7.—(By the Associated Press).—The appeals of seven Germans against the death penalty imposed on them last week by a French Court-martial at Mayence, have been rejected by the Court of Appeals. The men, Herren, Sasse, Maurer, Gruber, Hanne, Schneider, Dreger, and Frey, were charged with sabotage.

Pope's Letter Debated  
PARIS, July 7.—The Chamber of Deputies today after a discussion of Pope Pius's recent letter on the subject of the Ruhr occupation voted confidence in Premier Poincare. The vote was 458 to 180.

The French Government never will admit interference by the Pope in either its domestic or foreign policy, the Premier said in answer to critics who demanded discontinuance of the appropriation to maintain the French Embassy at the Vatican. The critics asserted that the Embassy proved its uselessness when it failed in its duty in not preventing publication of the Pope's recent letter on reparations, or at least advising the French Government in advance of its being made public.

The Pope, Premier Poincare asserted, has no authority in temporal matters.

"No doubt," he continued, "the Pope's views bear certain resemblance to those of certain of our allies. We don't see that they are any more offensive coming from the Pope than from our allies."

French Catholics Free  
The Pope's letter, to which French critics took exception, should have no political effect, he declared.

The Pope, French Catholics, however, fervent, full liberty in forming their own opinions. Consequently M. Poincare could see no reason for suppressing the Embassy at the Vatican.

"We don't suppress our embassies to the governments of our allies or those of neutrals when they ask that Germany's capacity to pay be examined by a so-called impartial commission," he said. "The maintenance of an Embassy is not a reward to a country which serves a what we want. If we might economize by suppressing them all and the Foreign Office as well."

Pope Lacks Power  
The Pope, continued the Premier, while the chamber applauded, has no power in the world to deprive France of its rights under the treaty of Versailles.

Turks Defeat  
Greek Regimen

SOFIA, July 7.—(By the Associated Press).—A report received today from Constantinople says that the Greeks attempted to land a regiment at Keri-Burun, near the Dardanelles, and that the Turks repulsed them, after severe fighting. There were many casualties on both sides, the report says.

In the fighting a Turkish torpedo boat sank a Greek ship, according to the Constantinople report, and many were drowned.

OPENING OF GIRL SCOUT CAMP IS POSTPONED  
Miss Mildred Fisher, director of the Scioto council of Girl Scouts, visited the camp site yesterday on Dr. Trumper's farm on Pond Creek, and stated upon returning that the carpenters still have much work to do and that the camp will not be completed and ready for opening next week, as intended. This is the second time that the opening has been postponed.

Contractor Paul Williams says that the work is progressing as rapidly as possible under present weather conditions and when the camp is completed it will be one of which the girls may be proud. An effort will be made to have the camp ready for opening on or about June 18.

This is an opportunity to all who are  
interested in Bible study to get a  
thorough knowledge of Bible teach-  
ing. Here are a few of the 15 ques-  
tions to be studied Sunday evening:  
What other earthly beings are  
designated as sons in the Bible?  
Where does the Bible teach that  
the soul is immortal?  
How much do the dead know?  
How do we know that nobody is  
or will be in eternal torment?  
Who is the author of the eternal  
torment idea?

## SPECIAL SERVICES AT U. B. SUNDAY

At the combined service Sunday  
Morning at nine o'clock Portsmouth  
United Brethren will have the good  
fortune to hear Rev. G. T. Rossett, a  
returned missionary from Shenge,  
Sierra Leone, West Africa. Rev.  
Rossett made two most popular ad-  
dresses at the Christian Endeavor  
Convention at Wellston and a dele-  
gate who was highly taken with his  
inspirational message remarked that  
Mr. Rossett is different from most  
missionaries and his addresses are  
unique and fascinating.

At the evening service at seven-  
thirty the pastor announces a special  
message on the interesting theme,  
"The Religion of Jesus Versus Chris-  
tianity." The religion of Jesus is  
fundamental and necessary. Nothing  
else can satisfy the cravings of the  
human heart. The theme implies

that there is a difference between  
the religion of Jesus and so-called  
Christianity. This message will be  
good for your soul. Hear it.  
Special musical numbers have  
been prepared for both services. In  
addition to the splendid organ won-  
ders by Miss Wheeler the large choir  
will render Charles Gounod's won-  
derful anthem, "Send Out Thy Light"  
at the morning service and a special  
vocal duet, "Twilight" by Geo. B.  
Nevins, will be rendered at the eve-  
ning service by Mr. Floyd Smith and  
Mrs. E. H. Dally. Visitors are al-  
ways welcome at this church and  
the public generally is cordially in-  
vited to attend any or all services.  
The church is centrally located at  
the corner of Seventh and Gay  
streets.

**Bishop Anderson At Trinity Sunday**  
A week from Sunday, Trinity is  
planning to entertain Rev. C. W.  
Hartinger, a former pastor, who is  
now in charge of First M. E.  
Church, Columbus.  
Plans are also under way to have  
Rev. George Wood Anderson, evan-  
gelist, who conducted a successful  
series of meetings at the new Lan-  
tern Garage, last winter, speak  
sometime during the summer.

**Jeff Davis, King Of Hoboes At The**  
**Second Presbyterian Church Sunday**  
Jeff Davis, King of the Hoboes,  
will speak to the young people of  
the Christian Endeavor Societies  
of the Second Presbyterian Church,  
Sunday evening at 6:15.  
Davis, whose fame as leader of  
the Knights of the Road has  
spread throughout the world, is  
visiting in Portsmouth addressing  
various labor bodies, and is a  
speaker well worth hearing.  
Personally acquainted with  
many of the crowned heads of  
Europe, "before they lost their  
jobs," as he expresses it, the  
friend of President Harding and  
former President Woodrow Wil-  
son, Davis has a wealth of ex-  
perience, and he is always at his  
best when speaking to young  
people.  
When asked if he would speak  
to the young people of Second  
church, Davis replied, "You bet  
I will. I am anxious to give to  
the young people of Portsmouth a  
message which is weighing on  
my heart. I have been all over  
the world. I have seen some  
conditions in every country under  
the sun, and I want to talk to  
the young people of Portsmouth  
about home."  
Arrangements are being made  
for an inspirational service of  
song, and the Christian Endeavor  
room of Second church will no  
doubt be packed when Davis  
ascends the platform.

**TO HOLD COMMUNION SERVICE**  
Special stress is being placed  
upon the morning service at the First  
Presbyterian Church Sunday.  
The communion service will be adminis-  
tered and all the members of the  
church and the friends of the congre-  
gation are expected. In perfect keep-

ing with the service the music has  
been arranged. Miss Irma Lindemeyer  
will sing "Great Peace Have  
They Which Love Thy Law"—Rogers.  
The choir will render "Gracious  
Spirit, Holy Ghost"—Gounod.  
The pastor will speak on the subject,  
"The Legacy of Peace."

# Miss Dolly Wise

She is here to answer any and all questions concerning love, matrimony, troubles, woes, etiquette, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, Ohio.

Dear Dolly—I am coming to you for advice. I am a married man and my wife doesn't treat me as she ought to. When she wants to go anywhere she doesn't ask me to go along, she just says she is going, and if I suggest going anywhere together she doesn't want to go, and anyone else can ask her and she is always ready to go. I treat her as good as I can and buy her most everything she wants. She can't give me a kind word. I love her and want to live with her, but Dolly she is so unkind to me I don't see how I can stay. It seems to me that she doesn't want me to stay with her. Now, Dolly, what would you do? X. Y. Z.

What would I do if I was sure that someone did not want me to live with them? Well it would not take me long to decide. Never force yourself on anyone, that is my motto. Of course your wife should consider you at all times, but how many men and women consider their mate when they want to do anything, such as going out on an evening? Does your wife go out often without you, or is it just once in awhile? If it is occasionally, then I wouldn't bother about it, but if it is all the time.

then why don't you try going out without her some evening when you are sure that she is going to be home all evening? If she thinks you have some outside interest to take up your time, she will soon stay at home. Remember the old saying, "what is good for the goose is good for the gander." Maybe if you buy everything she wants you are being too good to her. Maybe she is the type that likes to be treated rough. You see a husband should work out these problems. I only know the one side of the story. If I knew her side I would be in a better position to tell you what to do. Just try a few of my suggestions and see if they will work.

Dear Dolly—I am coming to you to ask if you can help me. We are planning an automobile trip up north. Can you tell me if there is a public camp near Black River Falls, Wis., and International Falls, Minnesota?

At the first place there is a beautiful camp site at Winnebago, the Indian settlement, where there is plenty of fishing and hunting and conveniences for the camper. At the latter place the camp is on the Canadian border, on Rain Lake. You will probably have to procure permits when you arrive there.

Dear Miss Wise—How many hours a week is a telephone operator supposed to work?

If they work more hours than we are supposed to work, to whom should the matter be reported?

TELEPHONE OPERATOR.

Women are supposed to work not more than 48 hours a week. Tell your manager about it and ask him if he thinks it fair. If you do your part, he will surely see your point.

Dear Miss Wise—I have started

Charles E. Harp, employed by the L. & N. Railway in Lexington, Ky., and a close call from being killed late Friday afternoon when the engine of N. & W. motor train No. 705, in charge of Engineer McCormick, struck his machine at Tenth and Waller Streets.

Harp, who leaped from his car after it had been dragged about 30 feet, was bruised about the back and his right foot was injured. Dr. C. C. Braunlin, who was called, found that no bones had been broken. After being hurt, Harp managed to reach

the home of his brother-in-law, Robert Little, of 1135 Tenth Street, where he is a visitor.

He had been down street earlier in the afternoon, and had left his brother-in-law there intending to get his wife and Mrs. Little in the machine and join him later. It was while on his way to the Little home that the accident occurred.

He had been driving north on Waller and was turning down Tenth when struck by the tender of the engine, which he did not see. The struts of the tender became fast-

ened beneath the machine and this is probably the only thing which prevented the car from being completely crushed and saved Harp from probable fatal injuries.

After Harp had jumped from the car it was dragged about 20 more feet before the locomotive came to a stop. The machine was removed from the track and left standing on the sidewalk alongside the St. Clair Hotel. Three wheels were torn off, the top smashed, the body badly twisted and the windshield shattered and both axles bent.

## ADVENTURES OF THE TWINS

by Olive Roberts Barton

The Bowlies were so bow-legged that they needed no arches at all.

THE next place Mister Sky Bow took the Twins to see in Rain-bow Land was the town the Bowlies lived in.

"Now, don't be surprised at anything you may see here," said the little fairy man. But Nancy and Nick had already seen so many queer things since they had entered the Rainbow Door that they said nothing was likely to astonish them now.

And yet they couldn't help saying, "Oh, my!" and "Oh, goodness!" when they came to the top of a hill and looked down on Bowlie Town.

For there on a nice grassy place were a lot of queer little people playing croquet on a smooth, green lawn.

Not that there is anything queer in croquet, where you hit a ball with a long, wooden hammer and send it through a wire arch and then count something.

But it is queer if the arches are made of legs instead of wire, and that's what the Twins were—"Oh, my!" and "Oh, goodness!"

The Bowlies were so bow-legged that they needed no arches at all, but themselves and they were having the best time ever.

"Won't you come and play?" they called when they noticed the Twins. "Then suddenly they noticed their straight legs."

"Oh, what a pity you haven't legs like ours!" they cried. "It must be awful to have straight legs! And how do you climb trees? And how can you ride ponies? And how can you do anything?"

"Well, it is hard!" confessed Nick. "It must be wonderful to have legs like yours for climbing."

"Just watch!" called one of the Bowlies, and he shinned to the top of a tree and slid down like a fire-man.

"Fie!" said Nick. But just then Mister Sky Bow beckoned and they had to go. "There are other places to visit," said he.

Word has been received that Miss Emma Mills of this city, who attends school at Miami University, Oxford, is critically ill. Her brother, A. B. Mills, left immediately to be with her.

Mrs. Evelyn Brown of Ninth St., has gone to Fort Wayne, Ind., to visit with Mrs. Jack Herrald.

Mr. and Mrs. C. L. Smith have returned to their home in Columbus after a pleasant visit to Mr. and Mrs. Charles Souther of Third Street, Mr. and Mrs. Gus Gengenbacher of 810 Gay street, and Mr. and Mrs. Fred Steady of Eleventh Street.

Mrs. E. H. Russell and son, J. B., have returned to their home in Huntington, W. Va., after a pleasant visit to Mrs. Russell's parents, Mr. and Mrs. J. J. Brushart, of Fourth Street.

Charles E. Harp, employed by the L. & N. Railway in Lexington, Ky., and a close call from being killed late Friday afternoon when the engine of N. & W. motor train No. 705, in charge of Engineer McCormick, struck his machine at Tenth and Waller Streets.

Harp, who leaped from his car after it had been dragged about 30 feet, was bruised about the back and his right foot was injured. Dr. C. C. Braunlin, who was called, found that no bones had been broken. After being hurt, Harp managed to reach

the home of his brother-in-law, Robert Little, of 1135 Tenth Street, where he is a visitor.

He had been down street earlier in the afternoon, and had left his brother-in-law there intending to get his wife and Mrs. Little in the machine and join him later. It was while on his way to the Little home that the accident occurred.

He had been driving north on Waller and was turning down Tenth when struck by the tender of the engine, which he did not see. The struts of the tender became fast-

ened beneath the machine and this is probably the only thing which prevented the car from being completely crushed and saved Harp from probable fatal injuries.

After Harp had jumped from the car it was dragged about 20 more feet before the locomotive came to a stop. The machine was removed from the track and left standing on the sidewalk alongside the St. Clair Hotel. Three wheels were torn off, the top smashed, the body badly twisted and the windshield shattered and both axles bent.

## NO OPERATION FOR HER

She Took Lydia E. Pinkham's Vegetable Compound and Escaped the Operation Doctor Advised

Louisville, Ky.—"I wish to thank you for what your medicine has done for me. I was in bed for eight or nine days every month and had a great deal of pain. The doctor said my only relief was an operation. I read of Lydia E. Pinkham's medicine and tried the Vegetable Compound and the Sanative Wash, and they surely did wonders for me. I feel fine all the time now, also am picking up in weight. I will tell any one that your medicines are wonderful, and you may publish my letter if you wish."

—Mrs. E. B. BOHLEN, 1130 Ash St., Louisville, Ky.

Backache, nervousness, painful times, irregularity, tired and run-down feelings, are symptoms of female troubles. Lydia E. Pinkham's Vegetable Compound should be taken whenever there is reason to fear such troubles. It contains nothing that can injure, and tends to tone up and strengthen the organs concerned, so that they may work in a healthy, normal manner. Let it help you as it has thousands of others. It is now selling almost all over the world.

Mrs. R. B. Cunningham, Miss Violet Cunningham and Richard Cunningham of Hutchins Street, Mrs. J. C. Sears of Grant Street, and Miss Fern Ayers, of Rooker, Va., are nicely located at No. 9 Columbia Avenue, Chautauque, N. Y., for the summer.

Mrs. Pearl Selby and daughter Miss Gladys Selby, of Timmonds Avenue, have left for a trip through California.

Mr. and Mrs. D. H. Wakefield of 1101 Eighteenth Street will have a Sunday guest Mr. Wakefield's mother, Mrs. May Wakefield, of Huntington, W. Va.

Mrs. D. H. Wakefield and children, Donatti, Billie Lou, Varina and Don, Jr., of 1101 Eighteenth Street, have returned from a three weeks' visit to Gallipolis, where they were the guests of Mrs. Wakefield's mother, Mrs. S. B. White.

## JACK DAW'S ADVENTURES — UNDER THE SEA

Of course Jack was thrilled at the idea of walking beneath the water. "Would it hurt me?" he asked one of the divers. "Oh, no," came the reply. And then the men helped put the diver's suit on. Flap in the meantime, had hopped down onto the flatboat and was looking on.

With the sea-suit finally adjusted, Jack boldly walked to the rope ladder and started climbing down it. It seem very queer to be able to walk in water without feeling it. Shortly, Jack could see through the diver's suit face glass that he was below the level of the water.

Then Jack discovered that he had reached the end of the rope ladder. Looking down he saw the bottom of the sea a short distance below. "That's only a little jump," said he to himself. "So I guess I'll just hop down there." So, letting go of the ladder, he slid through the water. (Continued.)

# Two Men Arrested After Kentucky Store Is Burned

Fire, said to have been incendiary, completely destroyed the Henderson general store at Flat Hollow, several miles back of Fullerton, about two o'clock this morning. An unsuccessful attempt was also made to destroy the barn, filled with hay and feed.

About three o'clock Constable Powers Parsons of New Boston was called and urged to put his blood hound on the trail, as footprints were plainly visible in the wet ground. Parsons took his dog to the scene and he is said to have picked up the trail at once. According to Parsons, the dog followed the footprints from the Henderson barn to a house, across the porch and to the door. Parsons' work ended there and he made a report to the owners of the destroyed property, who went at once to Fullerton and swore out warrants for the arrest of Will Collier, 48, and his son, Cole, 19. Marshall John Davis of Fullerton took the warrants and arrested Collier and the son and took them to Greenup, where the father was released on a bond of \$1,000. The son is still in jail. The father claims that he knows nothing of the fire and says he was arrested just because there was a feeling between himself and Henderson.

John Henderson conducted the store which was owned by Mr. Henderson and his son, Peter, who has a store in Fullerton. A drum of oil was all that could be saved from the burning building.

At the barn half burned matches that failed to light were found in a big crack in the barn. The hay had burned in several places near the crack, but on account of the rain last night was wet and did not blaze.

According to Henderson, he had been having trouble with Collier for sometime over a road and adds that Collier made threats that he would drive him out of that country.

The fire followed by the arrival of the blood hounds and a short time later the arrest of Collier and his son caused considerable excitement in Fullerton, Flat Hollow and vicinity, as the Hendersons and Colliers are well known. Constable Parsons and Marshal John Davis claim they unearthed additional evidence at the barn where a fire was started, but refuse to give out information, saying that it will be used at the trial. Collier and his son are scheduled to come up for trial at the next session of the circuit court which convenes July 16. The trial is expected to be on the following day, July 17.

Charles Adkins, of White Oak, and Adolph Resinger, of Fullerton, signed the bond for the father. The father left Greenup saying he was going to Fullerton to get bond for his son.

# Toll Collector Slain

HUNTINGTON, W. Va., July 7.—(By the Associated Press)—William Collier, of Hampton City, Ky., toll collector on the Big Sandy river bridge near here, was shot and killed early today by unidentified assailants. His body was found in the toll house by a party of automobilists. The police of Ohio, Kentucky and West Virginia were notified and asked to watch all roads leading from the district.

The authorities said they believed Robertson was killed by persons who sought to cross the bridge without paying the five cent toll.

Chief Distel stated today that the murderer may be headed this way, and the police here have been notified to keep a sharp lookout for the gun-user.

## OBITUARY

Mrs. Rachel J. G. Thompson  
Mrs. Rachel J. G. Thompson, age 63 years, wife of W. A. Thompson, died at her home at Peebles yesterday afternoon of cancer. Her long illness was marked by patience and endurance. Never complaining and always ready to greet her friends with a smile, she was a good woman and the announcement of her death comes as a severe shock to relatives and friends.

Mrs. Thompson was a member of the Christian Union Church at Otway, and in her girlhood days and during her residence at Otway, was an active church worker. She is survived by her husband, one son, Charles, and granddaughter, Aubrey; a niece, Mrs. Olive Garvin Moore, whom Mrs. and Mrs. Thompson had so kindly cared for from childhood until her marriage to Mr. Moore some five years ago. Other surviving relatives are three brothers, Samuel Garvin, of Orlando, Florida; William, of Columbus, and Albert, of Otway. Funeral services will be held from the home Sunday afternoon at two o'clock by Rev. George Hazlewood, after which the remains will be laid to rest in the Locust Grove Cemetery.

**ACCUSED OF HAVING GAMBLING DEVICE; JOE KING IS ARRESTED**

Joe King, proprietor of a soft drink parlor on Market street, was arrested by the police Friday afternoon on a charge of possessing a gambling device. He obtained his release on a \$50 bond for his appearance in municipal court Tuesday at one p. m. The charge is the result of a case in municipal court several days ago when two young men arrested on a gambling charge were examined at the charge, although admitting the gambling device was near money they had on the bar. The device is a small top and a paper containing pictures of race horses. Police claim that players of the game can stage a "real" horse race with the top and slip of paper.

**Will Face Disorderly Conduct Charge**

# Market News

**New York Stocks**

NEW YORK, July 7.—Stock prices displayed a strong undertone in today's brief but quiet session in the face of another attempt to unsettle the list by depressing Delaware and Hudson to 93½, a new low since 1921, on unfavorable dividend rumors. The scanty supply of numerous shares desired by short interests for covering operations resulted in some brisk gains and confirmed impressions that such sections of the market had been temporarily oversold. Practically all of the active issues registered material gains with DuPont rising 3½, Canadian Pacific 3½, General Electric 3½, Mack Truck 3, and Famous Players, Chandler Motors and a number of others. The closing was strong. Sales approximated 275,000 shares.

Conflicting price movements again characterized the opening of today's stock market but gains exceeded losses on initial transactions. U. S. Steel, Studebaker and some of the other leaders yielded fractions only. Schutte Storage advanced five points to a new high for the year and Pittsburgh and West Virginia and Mack Truck each gained one.

Schutte reacted three points from its early high and Delaware and Hudson sagged 1½ to 95, the lowest since 1921. Some good gains were recorded however, by the food, equipment, independent steel and public service shares. Air Reduction advanced 2 points, Houston, Pan American B. American Woolen, Lockhart, Nickel Plate and several others climbed a point or more. Demand sterling opened slightly higher but the other European foreign exchange rates were reactionary.

# Artist, Hypnotized, Sings Better

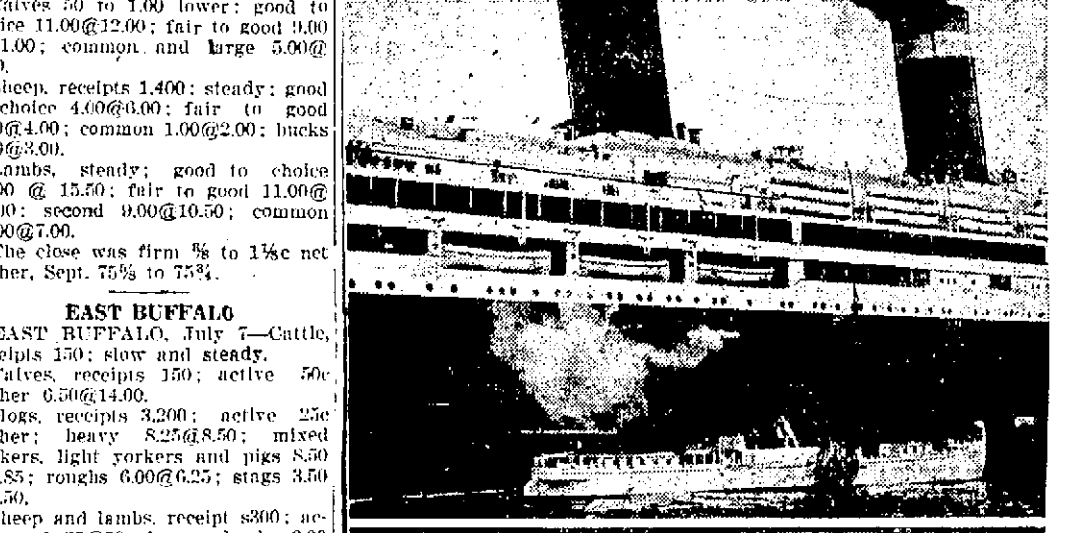

Miss Hazel Eden and Dr. H. N. May.

Following reports from Paris that Miss Ganna Walska, wife of Harold McCormick, had permitted herself to be hypnotized before she made her premier appearance at the Paris Opera House, Miss Hazel Eden, coloratura soprano, of the Chicago Civic Opera Company, submitted to a similar experiment at the hands of Dr. Harold N. May, former president of the American Medical Association and one of the leading alienists of the country. A striking change was noted in the performance of the artist, and she was able to sing in a range which under normal conditions would have been impossible.

# First Steamship Greeted Greatest

Leviathan and Clermont in New York harbor.

A replica of the Clermont, Robert Fulton's first steamship, which startled the world when it steamed under its own power from New York City to Albany, was anchored alongside the Leviathan, the world's greatest and fastest steamship, when the reconditioned German liner started her first voyage from New York as a passenger carrier under the American flag.

# One Feature Worth Entire Cost of Paper

That seems a strong statement to make, but we confidently believe that the great majority of the subscribers to the Portsmouth Morning Sun will agree that the DR. COPELAND ARTICLES are worth even more than the cost of the Sun per week. Dr. Copeland is one of the leading medical authorities of the country. He writes, every day for the Morning Sun, dealing with some topic of vital interest to the health of everyone. His articles afford a liberal education in health and hygiene. Try the Sun and see if this is not true.

This is but one of the many features in the Morning Sun. For instance some of the best cartoons are to be found every morning in the Sun. Probably the "best line of slang" in the country is used in "Our Boarding House." The Sun is growing. Why not help it along?

# Mystery In Slaying

SCARSDALE, N. Y., July 7.—(By the Associated Press)—An inquiry was begun today by the police to discover whether Dorothy Kaufmann killed in the home of Magruder Craighend on Tuesday, left a suitor or fiance behind her in the Menomonic Colony in Westover, Md., where she spent most of her early life before she came north last September.

Police Captain McQuillan expressed the opinion that some man might have followed her from the south and killed her when she refused to return with him. It was pointed out that Miss Kaufmann had nothing to do with any men but that she frequently received letters couched in devout religious terms from men in the Menomonic Colony.

A negro who was questioned by the police yesterday was later released.

On information furnished the police by the driver of a White Plains-Dobbs Ferry bus, Anthony Amundsen, who said he had no home, today was brought here from Dobbs Ferry and questioned by investigators in the room of the Craighend home in which Miss Kaufmann's body was found.

# Shoots Woman She Claims Stole Her Husband

CHICAGO, July 7.—Nine months ago, Mrs. Minnie Bernatowicz, 28, and the mother of four children, is alleged to have threatened to slay Mrs. Annie Andraski, 39, whom she accused of stealing her husband. Today Mrs. Bernatowicz, at a street corner, awaited Mrs. Andraski and shot and killed her.

In view of scores of persons, Mrs. Bernatowicz, revolver in hand, rushed upon her victim as Mrs. Andraski was about to board a street car to go to work, seized her by the hair and screamed her hatred and as the women writhed and sought to escape and several men approached, intent on preventing a tragedy, Mrs. Bernatowicz shot the woman twice.

John Bernatowicz, 18-year-old son of the slayer, was with his mother, and according to the police, pleaded with her to give him the revolver that he might kill Mrs. Andraski. He was arrested with his mother.

"At the happiest moment of your life, I will kill the woman who has made you happy and brought this suffering on me," Mrs. Bernatowicz is alleged to have told her husband, Joseph Bernatowicz, from whom she was separated nine months ago.

Mrs. Andraski's son, Bruno, 10 years old, heard the shots and ran to the corner as his mother fell mortally wounded.

Mrs. Bernatowicz's mother threatened to kill his wife if she interfered with his friendship for Mrs. Andraski.

# Challenges Record

Andrew Peters, of Los Angeles, set an altitude record for woman at 15,000 feet.

Mrs. Turner declared that she had gone up 19,000 feet with a male passenger but "never thought of it as record breaking."

The child was traced by its mother through Cuba, Mexico and Yucatan. Montgomery was arrested in Florida and returned to Indianapolis. ## HERE ARE FIRST PHOTOS OF THE DEMPSEY-GIBBONS FIGHT

TOM GIBBONS HAD HIS INNING

Although Jack Dempsey gained the referee's decision over Tommy Gibbons in their July 4th battle at Shelby, it wasn't by such a large margin. Gibbons looked like a new champion in the second round. Here he is shown starting an attack which drove the champion to the ropes.

## DEMPSEY IS ACCLAIMED VICTOR

Jack Dempsey, world's heavyweight champion, successfully defended his title in a 15-round bout with Tommy Gibbons of St. Paul, but Gibbons surprised the fight world by staying 15 rounds with the champion. ## A WOEFUL SCRAMBLE

**G**OVERNMENT reports indicate how badly out of joint the times are. The treasury department sends out word that its coffers are filling up to overflowing and the financial situation is sound and business sailing along on a steady keel. The labor bureau finds industries running far over normal and labor receiving high wages. The agricultural division declares retail prices of food products have been sharply advancing, with farm yields selling lower.

Right there is the nub and the rub. Abraham Lincoln said the country could not endure half free and half bond. No more can good times endure with prices steadily advancing in one direction and just as steadily declining in the other. Prosperity is not a divisible thing. In a country where a part of the populace experiences good times and the remainder poor times, there has got to be an adjustment, or a collapse. The pendulum has got to swing the whole crescent. It can not vibrate for long to one side without the clock stopping. A farmer has to pay anywhere from three to six times as much for his implements, and his labor as he paid in 1912. He can not keep that up long while prices for his own goods are less now than they were in that year.

Yet, that is, in the main the condition that confronts him now. When President Harding talks of relieving him he talks nonsense, because he points to the great service his administration has provided for agriculture by creating farm loans. The farmer doesn't want either facilities or opportunity for going into more debt, he has all of them and is deeper in now than he wants. His need is a fair share in the good things that are passing about, but not all around.

## SKIES ARE ALL CLOUDY

**S**ENATOR UNDERWOOD has just returned from a tour of Europe. Aside from being a member of the upper house of congress, his views on the situation over there derive significance from the fact that he has a considerable following as an aspirant for the Democratic nomination for president.

He views with concern conditions over there and sees more causes for war and, therefore, more likelihood of conflict, than existed prior to 1914. In truth the whole continent is in irritation and embroilment and the only thing that stays hostilities at arms is the financial weakness of all the nations.

The Alabama senator is a public character who has carried the air of one who posed as a statesman, rather than conducting himself as a staunch party man. He was not more than lukewarm towards ratification of the peace treaty and his somewhat excessive enthusiasm as one of the four power agreement conferees was rather offensive to Democrats. Indeed, he was not far from kicking out of the traces there. Therefore it is rather surprising to hear him say now that this country missed its greatest opportunity to rebuild Europe and stabilize the peace of the world, when it refused to join the league of nations, and it can accomplish nothing now by gaining membership in the international court of justice. From the cordial way he has been shaking hands, so to speak, with the Harding administration and it in turn has been patting him on the back, it was counted certain he would carry his grave and reverend support to Warren Gamaliel's pet proposition, until he crossed the Mississippi.

So this rare bit of presidential consecration can be regarded as dead and buried now, with the funeral oration to be delivered at some date in the future in the United States senate. For none the less because he is a presidential possibility, Underwood will rally about him some Democratic senators, there are others that are good enough party men to vote against anything the administration proposes, and with these and the irreconcilable Republicans, the international court proposition can be easily defeated and will be.

Rather cheering to hear the increased number of steamboat whistles on the Ohio.

Civil service as administered in the state of Ohio is a lovely thing. When a Democratic official dismisses a Republican subordinate the Republican half of the commission votes for his re-instatement; when a Republican official discharges a Democratic subordinate the Democratic half of the commission votes for his re-instatement. So there you are.

Amidst all this talk of railroad consolidation it is at the same time surprising and refreshing to hear that down in New Mexico and California they are going to build, right away, a railroad that will run many hundred miles.

## New York-Day-By-Day

BY O. O. MCINTYRE

**NEW YORK, July 7**—It was at the Club Petroushka that revenue agents found patrons drinking from champagne bottles. But it wasn't champagne—it was pure water. So the agents withdrew a little abashed to the merry shout of laughter.

Petroushka is a little section of old St. Petersburg night life transplanted to a private residence on the East Side. The sponsors are members of the Russian nobility—at least they were before the debacle. The decorations offer a barbaric note in Russian splendor.

The chef was a former Russian gourmet who was quite a figure at grand palace galas. Other attaches are said to be—at least by the poly-graphic press agent—high figures in Russian court life when it meant something.

It is the last cry of the Russian invasion. Chateau Souris has gone trouping to Paris. The Moscow Art Players left their indelible impression in the higher histrionic art and several other haunts of Russian birth have departed.

Upstairs at Petroushka is a "cabinet room" for ex-officers of the czar's regime. Here they gather in solemn conference several times a week, hoping that their club will take on and provide a little bluffer for the lean days. Whiskers are plentiful.

Following the Russian craze, the Egyptian fad came zipping from King Tut's tomb itself. It was only a mild splash and did not take on. It smelt too much of the tomb. Pleasure seekers did not react to shimmy dancers emerging from papier mache crypts. It was just a little bit too shuddery even for the blase.

He was wearing one of those wide striped suits—resembling somewhat the scream of a jaguar that misses its cub. People turned in fascination as he passed along. In front of the public library he was joined by a fashionably but very modestly dressed lady. She is the hostess at a garish tea dance. He is the son of a minister and is associate editor of a high-brow magazine.

SHE ROLLS HER OWN

By Magdalen Clement  
Pittsburgh's Helpless Poet

Kate rolls her own as you can see, And takes "no talk" from you, or me. Just curls her hair, and goes her way, And laughs—and sings from day to day.

She pouts and says, now if you please Whose business it I show my knees. And though we fret till we are gray She laughs at us and goes her way.

She rolls her own, and smokes, Oh Mr. I can do nothing else but sigh. A naughty vamp she is I know, But yet—Ah! me, I love her so.

Two years have passed, 'tis plain to see Kate's different as she well can be. Her cigarettes are thrown away— And yet—she rolls her own each day!

Two blissful years since we were wed, And in his carriage Baby Ted, Is rolled about our little home, My Darling Kate "she rolls her own."

Was Better Off Single  
Ex-stenographer—I made the mistake of my life when I married my employer.

Sympathetic Friend—How's that?  
Ex-steno—Before we were married he used to pay me \$30 a week and now he doesn't even pay me compliments.

Her Game  
He—I wonder how it is a girl can't catch a ball like a man.  
She—Oh, a man is so much bigger and easier to catch.

He Saved Trouble  
Teacher—Robert, in your composition on George Washington you say he cut down a cherry tree with a saw. Don't you know he chopped it down with a hatchet?  
Robert—Yes, sir, but I didn't know how to spell hatchet.

Vehicle With One Wheel  
A vehicle with three wheels is called a tri-cycle and one with two wheels is a bicycle," said the teacher. "Now, Edgar, what would you call a vehicle with one wheel?"  
"A wheelbarrow," promptly answered the little fellow.

Belonged to Floaters  
Sunday School Teacher—"Can any one tell me how Noah lived?"  
Pupil—"I don't think he had a regular home, I guess he and his family belonged to the floating population."

A Habit Broken  
Small Boy (on arrival at country cottage)—Mumsey, where is the bathroom?  
Mother—There isn't any bathroom, dear.

Well Exposed, Perhaps  
Winks—Your daughter seems a well-brought-up girl.  
Links—Young Sapleigh doesn't seem to think so. He makes my parlor a darkroom every time he calls.

A mountain or sea-side resort. If you should remark, "Oh, why is it that rain interferes with our sport?"

The natives will give you this reason. As though they were chanting together, "It's normally dry at this season. But this is unusual weather!"

AND when from the city you're flying To some "breezy country retreat," And find everybody is trying In almost unbearable heat, When all of the countryside blazes With fires of a world that is nothing.

You hear this most frequent of phrases, "It's really unusual weather!" "It never was this way before." They say of the heat or the wet, "We've lived here a lifetime or more. And this is the worst we've had yet."

The boosters are always inclined The same sort of bait to uncatcher. Wherever you go you will find It's always "unusual weather."
